**Ansett Aviation Training Dubai Announces, at Aviation Africa, Completion of ATR72-600 Full Flight Simulator Upgrade to Support African Airlines**

Dubai, United Arab Emirates based pilot simulator training center Ansett Aviation Training Dubai has announced at Aviation Africa 2023 that it has successfully upgraded its ATR72-600 full flight simulator to Standard NAS 3.1 and that the training device is now ready to support African airlines with their training requirements.

Ansett Aviation Training Dubai is a new state of the art full flight simulator training center located a few minute's drive from the airport at Dubai South, United Arab Emirates providing airline customers with training infrastructure that is easily accessible from all parts of Africa.

Ansett Aviation Training's CEO Mark Delany said "we are excited to be able to offer training support to the airlines and pilots throughout Africa. We look forward to welcoming the ATR pilots to Dubai".

Ansett Aviation Training Dubai's Khaled Hares said "I am very much thrilled to meet with all African ATR72-600 pilot training stakeholders in the beautiful city of Abuja".

The new Ansett Aviation Training Dubai training center is fully operational, supporting a number of operators and is in active discussion with airlines on how to best support their training requirements in 2023 and 2024.
